

### LIFE FITNESS CARDIOVASCULAR **Certified Pre-owned**

The Life Fitness CPO Program offers fully refurbished, previously owned Life Fitness commercial equipment at prices significantly lower than new-product pricing.

The CPO Program has precise certification standards to ensure the highest quality. Each piece is carefully disassembled and diagnosed, rigorously tested based on an extensive checklist, and fitted with new Life Fitness components, the same ones that are used in new commercial equipment. The CPO products are rebuilt to the original specifications, repainted with the same powder-coating procedure that new Life Fitness products receive, assembled and shipped in factory-grade cartons.

**Life Fitness - CPO (Certified Pre-owned)**
